

Web of Science (SSCI) 助力人文社会科学研究

王振

解决方案专家

科睿唯安 学术研究事业部

内容提要

1. Web of Science 能为我们做什么
2. 如何借助Web of Science获取更多科研信息
3. 如何更好地展示学术成果
4. 让高效成为科研常态

1 Web of Science 能为我们做什么

了解课题的发展趋势和发展阶段

了解课题的全球同行

了解课题的全球科研资源配置动向（基金来源）

探索国际国内合作研究

探索交叉学科领域研究

一个数据库?

一个学术数据库?

探索跨学科内容

来自最值得您信赖的全球引文数据库

选择数据库: Web of Science 核心合集 ▾ 引文索引: All ▾

Dr. Eugene Garfield

(1925. 9.16–2017.2.26)

美国情报学家和科学计量学家

美国科学信息研究所创始人

Citation Indexes for Science

A New Dimension in Documentation
through Association of Ideas

Eugene Garfield

“The uncritical citation of disputed data by a writer, whether it be deliberate or not, is a serious matter. Of course, knowingly propagandizing unsubstantiated claims is particularly abhorrent, but just as many naive students may be swayed by unfounded assertions presented by a writer who is unaware of the criticisms. Buried in scholarly journals, critical notes are increasingly likely to be overlooked with the passage of time, while the studies to which they pertain, having been reported more widely, are

approach to subject control of the literature of science. By virtue of its different construction, it tends to bring together material that would never be collated by the usual subject indexing. It is best described as an association-of-ideas index, and it gives the reader as much leeway as he requires. Suggestiveness through association-of-ideas is offered by conventional subject indexes but only within the limits of a particular subject heading.

If one considers the book as the macro unit of thought and the periodical article

Unique
Data
独特

Dr. Garfield 1955年在 *Science* 发表论文提出将引文索引作为一种新的文献检索与分类工具：将**一篇文献**作为检索字段从而跟踪一个Idea的发展过程及学科之间的交叉渗透的关系。

引文索引 OR 关键字检索

关键词的不断演变，造成漏检，
错过高影响力的重要文献

从一篇高质量的文献出发，沿着
科学研究的发展道路前行

划重点：相关记录

论文甲

Synthesis of Amino Acids
Synthesis and/or collection of Amino Acids is critical for cell survival. They not only serve as the building blocks for proteins but also as starting points for the synthesis of many important cellular molecules including vitamins and nucleotides.

论文乙

Synthesis of Amino Acids
Synthesis and/or collection of Amino Acids is critical for cell survival. They not only serve as the building blocks for proteins but also as starting points for the synthesis of many important cellular molecules including vitamins and nucleotides.

Web of Science可以帮你在

海量文献中快速高效地获取

最有价值的文献!

研究前沿报告

2021年12月8日，科睿唯安与中国科学院向全球联合发布了《2021研究前沿》报告，这是双方连续第八年携手发布《研究前沿》系列报告。

《2021研究前沿》报告依托于中国科学院杰出的文献分析实力，根据科睿唯安Web of Science和Essential Science Indicators（基础科学指标，简称ESI）的高质量数据，遴选出了自然科学和社会科学的 11 个大学科领域排名最前的 110个热点前沿和 61个新兴前沿。

2021年研究前沿报告发布现场（扫码下载研究前沿报告）

案例：探索进行**道德风险**理论相关研究的可行性

什么是道德风险？

美国一所大学学生自行车被盗比率约为10%，有几个有经营头脑的学生发起了一个对自行车的保险，保费为保险标的15%。按常理，这几个有经营头脑的学生应获得5%左右的利润。但该保险运作一段时间后，这几个学生发现自行车被盗比率迅速提高到15%以上。为什么呢？**原来，自行车投保后学生们对自行车安全防范措施明显减少，投保的学生由于不完全承担自行车被盗的风险后果，因而采取了对自行车安全防范的不作为行为。而这种不作为的行为，就是道德风险。**

这个领域值得研究吗？

```
#selection at the end --add back the deselected mirror modifier object
mirror_ob.select=1
modifier_ob.select=1
bpy.context.scene.objects.active = modifier_ob
print("Selected" + str(modifier_ob)) # modifier ob is the active ob
#mirror_ob.select = 0

1 Moral hazard and the assessment of insurance risk in eighteenth- and early-nineteenth-century Britain
Pearson, R
Spr 2002 | BUSINESS HISTORY REVIEW 76 (1) , pp.1-35
Insurance is a business in which trust is the corollary of risk taking. One problem for the insurance industry in eighteenth- and early nineteenth-century Britain was how to bridge the gap between the world of business based upon personal trust, and the emergence of new commercial relations where moral hazard was mass produced and where a commar ... 显示更多

Endogenous formation of competing partnerships with moral hazard

4 被引频次

 Espinosa, MP and Macho-Stadler, I

8th World Congress of the Econometric-Society

Jul 2003 | GAMES AND ECONOMIC BEHAVIOR 44 (1) , pp.172-183

20 参考文献

We analyze the formation of competing partnerships as a sequential game with moral hazard within coalitions. In a linear Cournot model, we show that when moral hazard is very severe, no partnerships will form. However, when moral hazard is not too severe, the coalition structure may be more concentrated than it is in the absence of moral hazard. ... 显示更多

☐ 1 Airport use agreements and cost efficiency of US airports

[Karanki, F and Lim, SH](#)
Dec 2021 | [TRANSPORT POLICY](#) 114 , pp.68-77

In this study, we examined the impact of airport use agreements on the cost efficiency of large and medium U.S. hub airports in the years between 2009 and 2019 using a stochastic cost frontier model. We found that residual airports were less cost-efficient than compensatory and hybrid airports. The cost inefficiency in turn may translate into higher user fee: ... [显示更多](#)

How does capital affect bank performance during financial crises?

483

被引频次

Berger, AN and Bouwman, CHS

Jul 2013 | JOURNAL OF FINANCIAL ECONOMICS 109 (1) , pp.146-176

This paper empirically examines how capital affects a bank's performance (survival and market share) and how this effect varies across banking crises, market crises, and normal times that occurred in the US over the past quarter century. We have two main results. First, capital helps small banks to increase their probability of survival and market sh...

This paper shows that CEOs are hired after bad firm performance caused by factors beyond their control. Standard economic theory predicts that corporate boards filter out exogenous industry and market shocks from firm performance before deciding on CEO retention. Using a hand-collected sample of 3,365 CEO turnovers from 1993 to 2009, we document ... [显示更多](#)

Browse, search, and explore journals indexed in the *Web of Science*

The *Master Journal List* is an invaluable tool to help you to find the right journal for your needs across multiple indices hosted on the *Web of Science* platform. Spanning all disciplines and regions, *Web of Science Core Collection* is at the heart of the *Web of Science* platform. Curated with care by an expert team of in-house editors, *Web of Science Core Collection* includes only journals that demonstrate high levels of editorial rigor and best practice. As well as the *Web of Science Core Collection*, you can search across the following specialty collections: *Biological Abstracts*, *BIOSIS Previews*, *Zoological Record*, and *Current Contents Connect*, as well as the *Chemical Information* products.

工作原理

只要很少的一些信息, 例如标题、摘要和参考文献, 我们就可以帮您找出最适合投稿的期刊。

通过我们正在申请专利的技术, 您可以对来自 Web of Science 的数百万数据点和引文关系进行分析, 探寻这些出版物与您引文数据之间的关联。

只需要几秒钟, 系统就会为您送上 JCR® 数据、关键的期刊信息以及出版商详情, 帮助您比较各项选择并进行投稿。

只有 Clarivate Analytics 才能通过强大的 Web of Science 平台, 为您的稿件发表选择提供支持。

[详细了解稿件匹配的工作原理](#)

Journals and Conferences

Discover journals and conferences on Publons. Spot reputable titles at a glance by looking for the blue tick (indicating our rigorously-vetted publishing partners), as well as a strong review history and expert endorsements. Journals without the blue tick have been added by peers in your field when they submit a publication, peer review, or editorial record for those journals.

Just because a journal is listed on Publons does not mean we endorse that journal. Only journals with the blue partner tick have been vetted by our team.

ABOUT

Sensors (ISSN 1424-8220) provides an advanced forum for the science and technology of sensors and biosensors. It publishes reviews (including comprehensive reviews on the complete sensors products), regular research papers and short notes. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the length of the papers. The full experimental details must be provided so that the results can be reproduced.

PRE-PUBLICATION REVIEW

FEB 2020

DETAILS

The article Optimizing Adaptive Neuro-Fuzzy Inference System for Spatial Prediction of Landslide Susceptibility Using Four State-of-the-art Metaheuristic Techniques (ID: sensors-741994) presents 4 algorithms applied to ANFIS in order to improve the spatial predictability of landslides in Qazvin province, Iran. The authors did a very good job in doing this task. The overall English language of the manuscript needs correction from a native English speaker.

At this stage, I would recommend a major revision before being published in Sensors, because there are some issues that the authors need to address and that are presented below:

Introduction: L41: you open the parentheses, but you did not close it L49:-50: try rephrase this sentence; it sounds a bit weird L56: at the end of this phrase, you should add some more references L58: there is no need to mention the first author name, the reference number is enough. This is valid for your entire manuscript L57-67: I think that within this paragraph you should mention more methods employed in landslide susceptibility (AHP, MARS, etc.), along with the following, but not limited to the following references:
<https://doi.org/10.3390/e20110868>,
<https://doi.org/10.1016/j.geomorph.>
<https://doi.org/10.1007/s10346-019->

PRE-PUBLICATION REVIEW

MAR 2020

DETAILS

Dear authors,

I am satisfied with the way you corrected the manuscript. Except for the fact that you still did not follow the instructions for authors in what concerns the name of the journals (which should be abbreviated) and the use of DOI, which is highly indicated.

Besides this, everything looks fine.

Kind regards

摘要

Conventional wastewater treatment with primary and secondary treatment processes efficiently remove microplastics (MPs) from the wastewater. Despite the efficient removal, final effluents can act as entrance route of MPs, given the large volumes constantly discharged into the aquatic environments. This study investigated the removal of MPs from effluent in four different municipal wastewater treatment plants utilizing different final-stage treatment technologies. The study included membrane bioreactor treating primary effluent and different tertiary treatment technologies (discfilter, rapid sand filtration and dissolved air flotation) treating secondary effluent. The MBR removed 99.9% of MPs during the treatment (from 6.9 to 0.005 MP L⁻¹), rapid sand filter 97% (from 0.7 to 0.02 MP L⁻¹), dissolved air flotation 95% (from 2.0 to 0.1 MP L⁻¹) and discfilter 40-98.5% (from 0.5 - 2.0 to 0.03-0.3 MP L⁻¹) of the MPs during the treatment. Our study shows that with advanced final-stage wastewater treatment

摘要

背景 中国武汉最近发生的一组肺炎病例是由一种新型 β 冠状病毒, 即 2019 新型冠状病毒 (2019-nCoV) 引起的。我们报告了这些患者的流行病学、临床、实验室和放射学特征以及治疗和临床结果。

方法 所有疑似 2019-nCoV 的患者均被送往武汉市定点医院。我们通过实时 RT-PCR 和新一代测序前瞻性地收集和分析了实验室确诊的 2019-nCoV 感染患者的数据。数据是通过世卫组织和国际严重急性呼吸道和新发感染联盟共享的标准化数据收集表从电子病历中获得的。研究人员还直接与患者或其家属沟通, 以确定流行病学和症状数据。还比较了入住重症监护病房 (ICU) 和未入住重症监护病房 (ICU) 的患者的结果。

结果 到 2020 年 1 月 2 日, 41 名入院患者被确定为实验室确诊的 2019-nCoV 感染。大多数感染患者是男性 (41 人中的 30 人 [73%]) ; 不到一半有

1 Science and technology for water purification in the coming decades
Shannon, MA; Bohn, PW; (...); Mayes, AM
Mar 20 2008 | NATURE 452 (7185), pp.301-310
One of the most pervasive problems afflicting people throughout the world is inadequate access to clean water and sanitation. Problems with water are expected to grow worse in the coming decades, with water scarcity occurring globally, even in regions currently considered water- rich. Addressing these problems calls out for a tremendous amount of rese ... 显示更多

如何在写作中自动插入参考文献?

不同领域、不同期刊的参考文献格式不尽相同

参考文献格式正确与否直接关系着我们文章投稿的成功率

未经编委审查，在期刊初审阶段就退稿，很大一部分是格式问题，特别是**参考文献格式**。

即使是最高水平的期刊，其中也有30%的文章有参考文献的错误，这大大降低了文章被引用次数的统计。
